

Comprehensive Solid Waste Management Plan Amendment

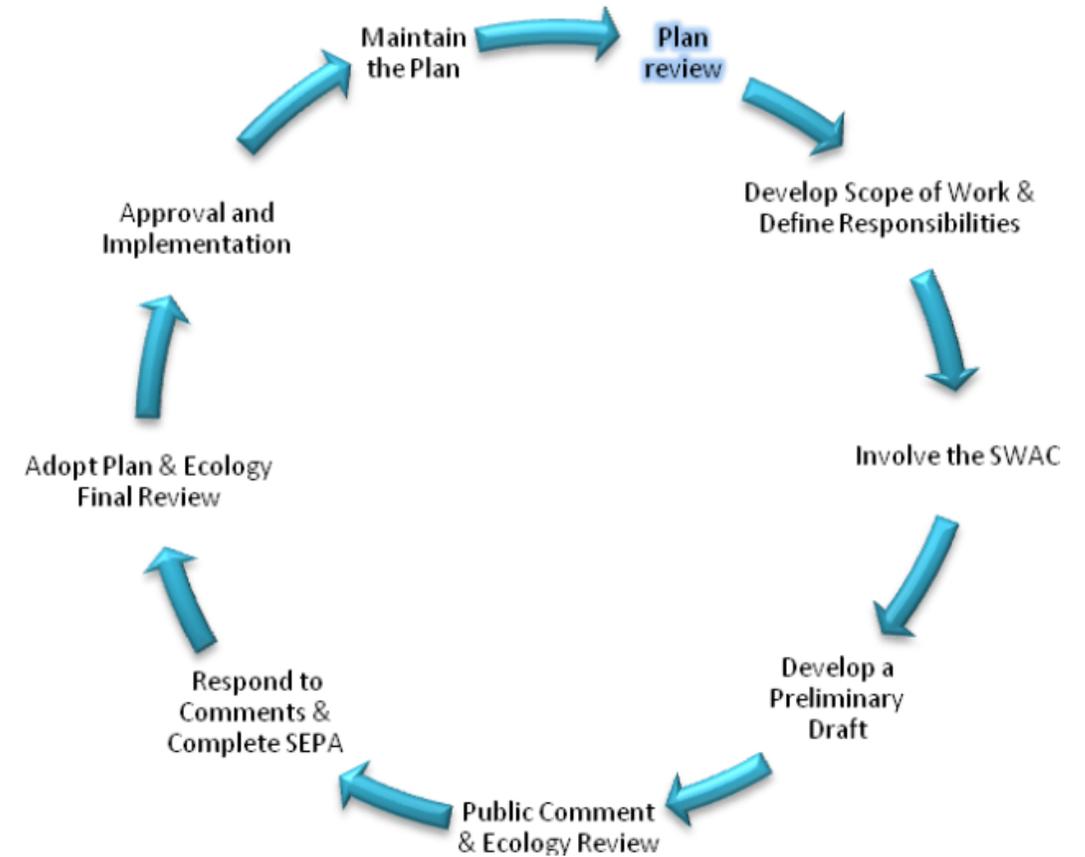

Solid Waste Advisory Committee Meeting

June 6, 2018

Ecology's Guidelines for Local Solid Waste Management Plans

- Washington State law requires every Ecology approved SWM plan to be reviewed every five years, at a minimum.
- Review can lead to three possible outcomes:
 - “No-action” determination (uncommon)
 - An Amendment is required
 - A Revision is required
- **Amendments** allow minor adjustments to the plan within the five-year planning window for a variety of reasons, including:
 - Keeping the plan up to date.
 - Ensuring permits can be properly issued.
 - Ensuring grant funding can be secured.
 - Ensuring the appropriate commodities can be collected for recycling.
- **Revisions** are required for any changes outside the five-year review period OR any major changes, e.g., facility construction, changes in disposal methods.

Estimated Amendment Timeline

Task	May '18	Jun '18	Jul '18	Aug '18	Sep '18	Oct '18	Nov '18	Dec '18	Jan '19	Feb '19	Mar '19	Apr '19	May '19	Jun '19	Jul '19	Aug '19	Sep - Dec '19
Contract Signed																	
Task 1: Project Management Plan
